

Ralf Röhlsberger CV

Present research fields: Magnetism of thin films and nanostructures, quantum optics with X-rays, X-ray spectroscopy and polarimetry with synchrotron radiation, nuclear solid-state physics

Since 3/2020	Full Professor for X-ray Physics at Friedrich-Schiller Universität Jena and Helmholtz Institut Jena
Since 2003	Senior scientist at DESY, Hamburg. Leader of the Group 'Magnetism and Coherent Phenomena'
2005 - 2010	Deputy leader of the experiments division at PETRA III, DESY, Hamburg
2004 - 2012	Privatdozent for Experimental Physics, Universität Hamburg
2002 - 2003	Interim professorship at the Technical University of Munich
2002	Habilitation in Experimental Physics, Universität Rostock
1996 - 2002	Scientific Assistant, Department of Physics, Universität Rostock
1994 - 1996	PostDoc at the Advanced Photon Source, Argonne National Laboratory, USA
1994	Ph. D. in Experimental Physics, Universität Hamburg
1988 - 1994	Scientific co-worker, Institut für Experimentalphysik, Universität Hamburg (Group of Prof. Dr. E. Gerdau)
1988	Diploma in Physics, University of Hamburg
1982 - 1988	Study of Physics , University of Hamburg
